Thanks Bob.

FYI, I am also attaching the San Jacinto River stage plot from NOAA at the Beaumont Hwy, near Sheldon, upstream of the San Jacinto pits.

**Subject:** Weekend Rainfall Intensity

All,

See the attached for the rainfall amounts over the weekend and how that matches with the rainfall frequencies for our area. All of our gages were below at 25-yr event. Totals certainly did pile up over time and those slower rates and initial dry grounds likely helped us from having a more significant flood event.

Let me know if you have any questions.

Thanks,

9672972

Jeff Lindner
